

Manage a accounting commitment (engagement)

Create a commitment

- 1. Click on the link :

Catalog of API

In "search operations", you can also search "engagement"

Add commitment (POST)

- 1. Add commitment using the API

Here is the list of accounting commitments :

The screenshot shows a table with the title 'cabinet.engagement'. Above the table are four action buttons: 'Ajouter', 'Modifier', 'Supprimer', and 'Sauvegarder'. The table has five columns: 'Numéro mission', 'Description', 'Se...', 'Engage...', and 'Dossier Cli...'. There are two rows of data:

	Numéro mission	Description	Se...	Engage...	Dossier Cli...
1	LM001	ENGAGEM...			MANON001
2	LMPROVISOIRE1	Lettre miss...			MANON001

- 2. Let's try the API POST (Add commitments)

- 3. Fill in the following information : subscription Key, x-apikey and body

Body by example : { "code": "LM002", "description": "ENGAGEMENT API", "engagementManager": "", "codeDossier": "MANON001", "statut": "E0001", "type": "1", "dateRenouvellement": "2020-12-31T00:00:00Z" }

Parameters
+ Add parameter

Headers

Cache-Control

Ocp-Apim-Subsc:

x-apikey

+ Add header

Body

Request body format Raw Binary

```
{
  "code": "LM002",
  "description": "ENGAGEMENT API2",
  "engagementManager": "",
  "codeDossier": "MANON001",
}
```

4. Click on try, attempt is successful it displays 200 OK

HTTP response

```
HTTP/1.1 200 OK

content-type: application/json
date: Wed, 09 Feb 2022 14:45:49 GMT
requestid: a0beb3b0-9544-440b-beb9-dda1da459316
strict-transport-security: max-age=15724800; includeSubDom
ains

{
  "processing": "submitEngagement",
  "code": "200",
  "message": "add de l'engagement LM002 reussi."
}
```

5. Commitment is inserted in the list

cabinet.engagement

+ Ajouter Modifier Supprimer Sauvegarder

	Numéro mission	Description	Se...	Engage...	Dossier Cli...	I
1	LM001	ENGAGEM...			MANON001	I
2	LMPROVISOIRE1	Lettre miss...			MANON001	
3	LM002	ENGAGEM...			MANON001	I

Modification of accounting commitment (Engagement)

1. Selected Let's try the API PUT (Modification d'un engagement)

You do not need to read the commitment before

We will modify the "description" and "codeDossier" of the commitment that we inserted before : LM002

Engagement

Numéro mission:* LM002

Description: ENGAGEMENT API2

Service:

Engagement manager:

Dossier Client: MANON001

Entité ID: MANON001

Date de début:

Date de fin:

Statut: Avant-projet

Mission: Compta

Date de renouvellement: 31/12/2020

Ok Annuler

2. Then select the commitment to edit. We want to change the Description "ENGAGEMENT API2" by "engagement API2 modification" and code Dossier "MANON001" by "MANON002"

- On the body, we change the fields that we want

```
{ "code": "LM002", "description": "engagement API2 modification", "engagementManager": "", "codeDossier": "MANON002", "statut": "E0001"1, "type": "1", "dateRenouvellement": "2020-12-31T00:00:00Z" }
```

Engagement

Numéro mission:* LM002

Description: ENGAGEMENT API2 modification

Service:

Engagement manager:

Dossier Client: MANON002

Entité ID: MANON002

Date de début:

Date de fin:

Statut: Avant-projet

Mission: Compta

Date de renouvellement: 31/12/2020

Ok Annuler

The Result :

```
{ "processing": "submitEngagement", "code": "200", "message": "update de l'engagement LM002 reussi." }
```
